Contents

The Compressibility and Sensitivity of an Artificially Sedimented Clay Soil: The Grande-Baleine Marine Clay, Québec, Canada Jacques Locat and Guy Lefebvre	1
Measurement of Wave-Induced Pressures and Stresses in a Sandbed Kenneth R. Demars and Edward A. Vanover	29
Interrelationships of Organic Carbon and Submarine Sediment Geotechnical Properties Richard H. Bennett, Linda Lehman, Matthew H. Hulbert, George R. Harvey, Sam A. Bush, Evan B. Forde, Patty Crews, and William B. Sawyer	61
Probabilistic Analysis for Wave-Induced Submarine Landslides M. S. Rahman and F. M. Layas	99
Book Reviews	117
Measurements of Wave-Induced Pore Pressure in Submarine Sediments Under Various Marine Conditions Shigeyasu Okusa	119
The Nature and Engineering Behavior of Fine-Grained Carbonate Soil From Off the West Coast of India M. R. M. Nambiar, G. Venkatappa Rao, and Shashi K. Gulhati	145
Soil Response to Ocean Waves Leland M. Kraft, Jr., Steven C. Helfrich, Joseph N. Suhayda, and Justo E. Marin	173
Thermal Conductivity and Permeability Assessment by Electrical Resistivity Measurements in Marine Sediments Michael Anthony Lovell	205

Book Review	241
Geotechnical Aspects of a Submarine Slope Failure, Kitimat Fjord, British Columbia M. W. Johns, D. B. Prior, B. D. Bornhold, J. M. Coleman, and W. R. Bryant	243
A Note on the Relationships Between Organic Matter and Some Geotechnical Properties of a Marine Sediment James S. Booth and Alfred G. Dahl	281
The Effect of Cyclic Loading on the Undrained Shear Strength of a Silty Clay A. F. L. Hyde and S. J. Ward	299
Chemical and Microbiological Aspects of Acoustically Turbid Sediments: Preliminary Investigations G. B. Jones, G. D. Floodgate, and J. D. Bennell	315
Book Reviews	333
Pore Pressure in Ocean-Floor Sands Under Random Waves M. S. Rahman and F. M. Layas	341
<i>Technical Note</i>	
Physical and Elastic Properties of Marine Sediments off Bombay, India L. V. Subba Raju and Y. V. Ramana	359
Acoustic Environment and Physico-Mechanical Properties of the Shelf Seabed off the Pearl River Mouth Liang Yuanbo and Lu Bo	377
Book Reviews	393
